

Fast Facts

Pedals for trucks

Accelerator pedals are more than an Interface between driver and vehicle. Beside the driver's perception of ergonomic and Kick-Down performance they support important functionalities for reducing fuel consumption, engine management and are also integrated into safety- and comfort systems.

Innovation

- Compact and robust design
- Design suitable for all cabin sizes
- Proprietary Autopad® sensor technology (inductive)

Typical features

- Contactless sensor technology
- Redundant output signal
- Typically 5 V supply voltage
- Programmable output signal characteristic
- High reliability
- FMVSS 124
- FMVSS 302

Design freedom

- Kick down function on demand
- Outer shape could be customized
