

Health & Safety Policy

TT Electronics plc is committed to providing, in as far as is reasonably practical, a work environment which is conducive to the health, safety and welfare of all employees and others who are affected by our operations.

It is our objective to meet, and where possible surpass, statutory requirements. TT Electronics plc's management is committed to ensuring the necessary organisation and processes are in place to achieve this.

There is a legal requirement for all of us to take reasonable care of our own health and safety at work and to comply with company procedures. It is in all our interests to work together towards this health and safety goal.

To ensure that we operate in a safe environment you will be provided with all information, instructions and training as is necessary. In addition, arrangements are in place to enable employees to raise issues relating to health and safety. All comments and concerns are welcome and will be responded to promptly.

The policy will be regularly monitored to ensure that its aims and objectives are being achieved. It will also be reviewed in the light of legislative or organisational changes within TT Electronics plc.
