

PRODUCT CHANGE NOTIFICATION

Reference: SMLPCN98
Title: TT Electronics Semelab Lutterworth Site Closure & Products Transfer
Issue Date: 15/07/2021
Originator: TT Electronics
Distribution: All

1 Summary

Further to the communications regarding the closure of the TT Electronics Semelab business and manufacturing at the Lutterworth Site, we are providing this notification to formally inform customers of the active product lines which will be serviced through the TT Electronics Welwyn Components Limited business.

1.1 Affected products

Refer to Active product transfer list '[SMLPCN98_Product_Transfer_List_15-07-2021.xlsx](#)' provided and available from the TT Electronics web site.

Please note:

- Any part numbers not included in this list but included within your systems should now be classified as obsolete.
- Part numbers from the New Space Electronics ® range including the suffix N1 or N2 are under development. Please consult the sales team for details and availability.

2 Change Information

2.1 Detail of change

Due to the closure of the TT Electronics Semelab Limited business and the end of manufacturing at the Lutterworth site the retained product portfolio will be adopted by the TT Electronics Welwyn Components Limited Business (Welwyn Electronics Park, Bedlington, Northumberland, NE22 7AA, England).

For active products, quotes will be provided from, orders taken and supplied by Welwyn Components Limited.

2.2 Change impact

TT Electronics are working to minimize supply chain disruption while equipment and capability are transferred and re-established.

With the transfer of business from Semelab to Welwyn Components a larger proportion of externally provided products, processes and services (including assembly and test), will be undertaken (including manufactured outside of the UK). The country of origin will be clearly stated on all certificates of conformity, however if you require specific details please verify this prior to placing any purchase orders.

Product documents (i.e. datasheets) referencing Semelab will persist in on the TT Electronics web site and will transfer into the Welwyn business system. It should be noted that where Semelab Ltd is used Welwyn components Ltd will be the supplier. Changes made to Datasheets will be notified under separate PCN's

2.3 Qualification of change

Transferred products will be fit, form and function the same as supplied by Semelab. Production processing will be performed in accordance with the same standards and requirements as provided by Semelab. To ensure new builds meet the same electrical specification and build quality as parts supplied from our Lutterworth facility, the transfer will include applicable validation and qualification for the part, product family or technology. Certificates of conformity will be provided, and traceability maintained. Customers with specific qualification needs or first article inspection requirements should identify this at the point of quotation and may incur an extended lead time and additional charges.

Important information / Disclaimer

Semelab Limited reserves the right to change test conditions, parameter limits and package dimensions without notice.

Information furnished by Semelab is believed to be both accurate and reliable at the time of publication. However, Semelab assumes no responsibility for any errors or omissions discovered in its use. Semelab encourages customers to verify that product availability, information and datasheets are current before placing orders.

3 Implementation of change

3.1 Applicable Open orders:

Open orders taken by Semelab are expected to be fully satisfied before the site closure. Threshold dates for orders to be serviced by Lutterworth have been communicated to the customer / distribution network. Requests for quotation and orders will continue to be taken via the Semelab customer services team past the threshold dates, however, these will be acknowledged and serviced by the Welwyn Components Limited, Bedlington system. Please use the Bedlington.sales@ttelectronics.com for quotes and customer services.

3.2 Implementation date

The Semelab, Lutterworth manufacturing facility will close on the 31st of December 2021. Quotations and orders for transferred products are being considered for all requests based on the material lead time and production capacity availability before closure.

3.3 Shipment date of changed product:

Quotations for transferred products will take into consideration of the materials, transfer of critical manufacturing capability, qualification and production batch build time. Manufacturing capacity will be assigned upon order placement.

3.4 Identification of changed product:

Products can be identified with traceable lot numbers and the supporting certificate of conformity. Component manufacturer marking will change from SML to WEL or TT (for TT outsourced manufacture) The CAGE Code for Semelab (U3158) will be replaced with CAGE code for Welwyn (U1395)

4 Contact information

To contact Semelab regarding this change please use the details at the foot of this document or contact your local sales representative.

5 Authorisation
